15	Adrien	VOX 3	UHF Beta58 / SM58	Comp	-

**If available, the three vocals can use good quality wireless microphones.
The 3 singers NEED at least 10m of mic cable.**

PERFORMER

A performer with visual effects is also on stage. His show is composed by :

- Electric grinder visual effects (innocent extra-fine projections, portable electric gringer - no electrical outlet necessary)
- Mini torch manipulation, linked by two chains and controlled by rings (see annex*)

If the venue cannot host it, thank you to warn us minimum one month before the show.

BACKLINE

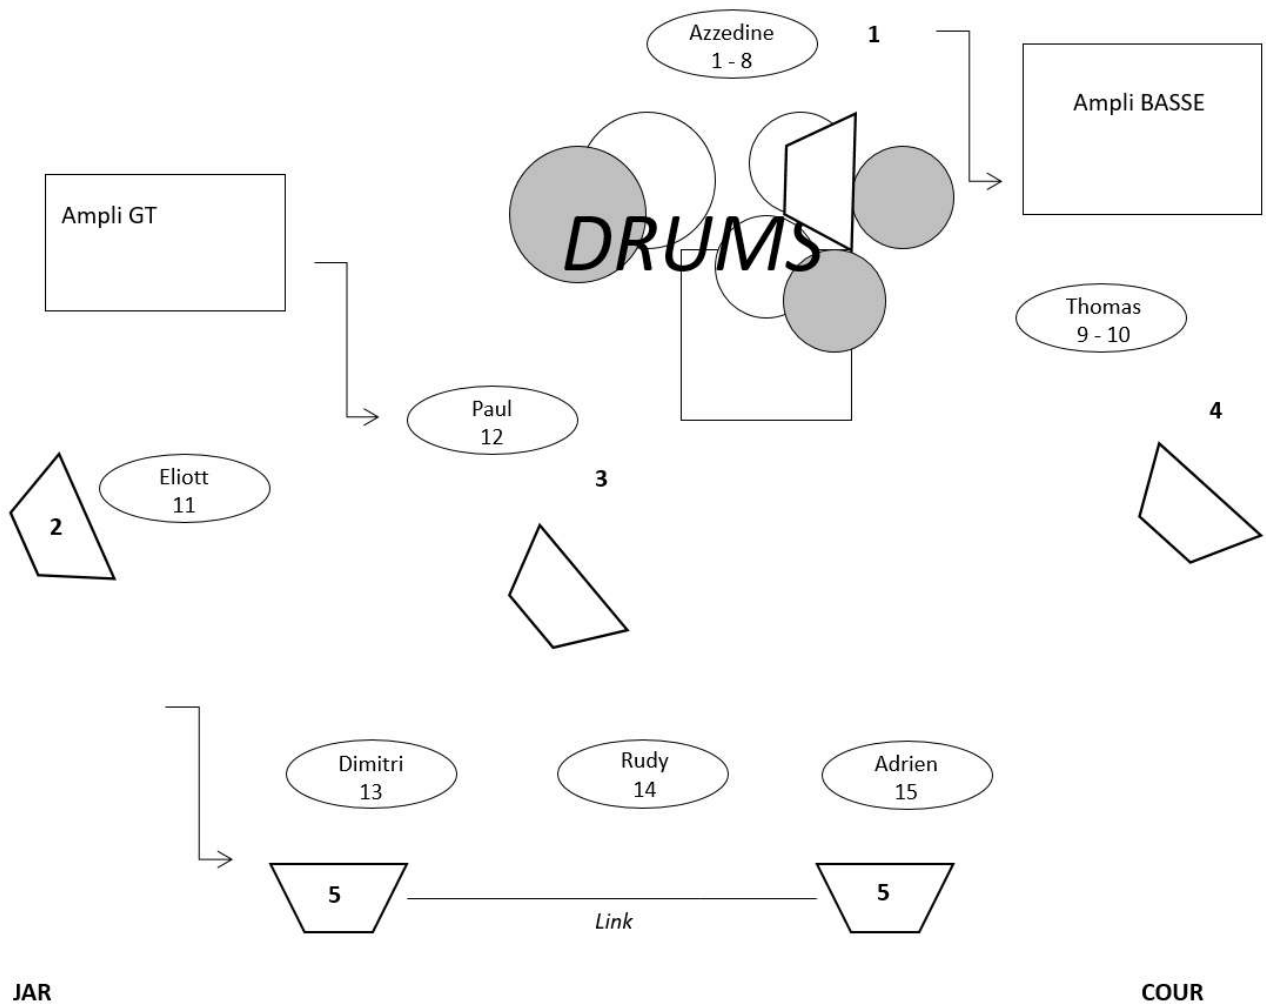

KRAV BOCA has its own backline : 4 piece drumkit, bass amp, guitar amp, guitar pedalboard, mandolin pedalboard.

LIGHT & SOUND

We have no light technician nor sound technician, the venue must provide one that will be present from our arrival to the end of the show. Sound system must be set up when we get to the venue (as well as the foldbacks/wedges).
