PERFORMER

A performer with visual effects is also on stage. His show is composed by:

- Electric grinder visual effects (innocent extra-fine projections, portable electric gringer - no electrical outlet necessary)
- Mini torch manipulation, linked by two chains and controlled by rings (see annex*)

If the venue cannot host it, thank you to warn us minimum one month before the show.

BACKLINE

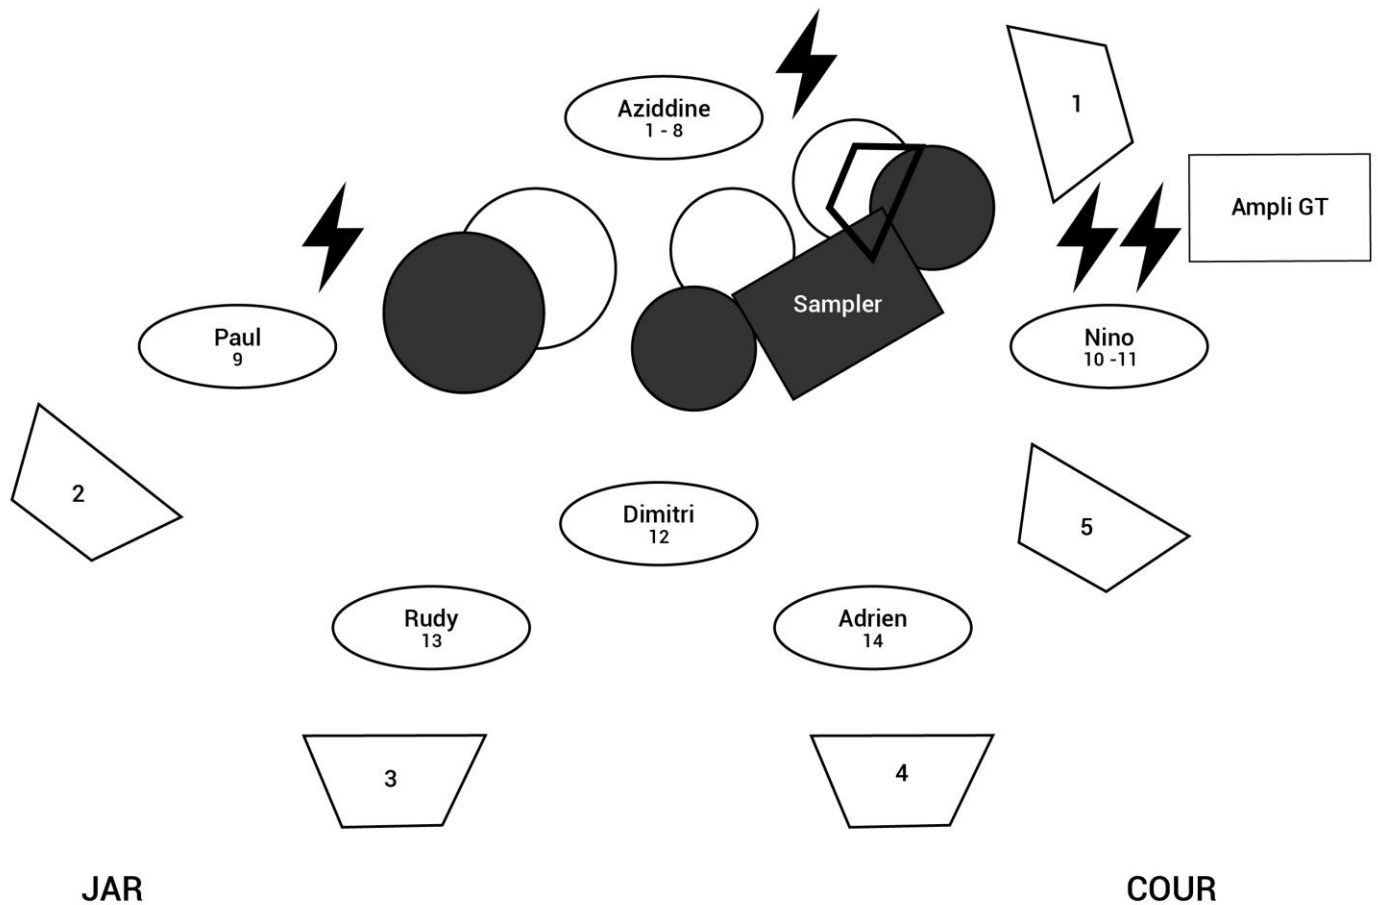

KRAV BOCA has its own backline: 4 pieces drumkit with Roland’s sampler (stereo DI included), guitar pedalboard, guitar amp, mandolin pedalboard (DI included).

LIGHT & SOUND

We have no light technician nor sound technician, the venue must provide one that will be present from our arrival to the end of the show. Sound system must be set up when we get to the venue (as well as the foldbacks/wedges).

- Full sound system: 2 front speakers, subwoofer speaker
- Mixing table: 9 inputs minimum
- Sound system minimum power:
 - Inside shows: 2 kw (subwoofer included)
 - Outside shows: 6 kw (front speakers) + 2 kw (subwoofer)

STAGE LAYOUT

GENERAL INFORMATIONS
